RESOLUTION NO. 2018-23

WHEREAS, Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017 was passed by the State Legislature and signed into law by the Governor in April 2017 to address the significant multi-modal transportation funding shortfalls statewide; and

WHEREAS, SB 1 includes accountability and transparency provisions that will ensure the residents of the City of Bell are aware of the projects proposed for funding in the community and which projects have been completed each fiscal year; and

WHEREAS, the City must adopt a list of all projects proposed to receive funding from the Road Maintenance and Rehabilitation Account (RMRA), created by SB 1 by resolution, which must include a description and location of each proposed project, a proposed schedule for the project’s completion and the estimated useful life of the improvement; and

WHEREAS, the City has prepared a Pavement Management System that was presented for public and City Council to consider and approve the community’s transportation priorities and the project lists; and

WHEREAS, the City used the Pavement Management System to develop the SB 1 project list to ensure revenues are being used on the most high priority and cost effective projects that also meet the community’s transportation priorities; and

WHEREAS, the City previously amended its FY 2017/2018 operating budget to receive an estimated $207,449 in RMRA funding from SB 1; and
